

Pre-Sale Site Phase I

Key Features

1. Background image, no obvious input field
2. Users can Paste a code directly on the site
3. If code is valid, users are directed to a sign up form
 - Codes are automatically generated, unique, and 1 time use
 - Different form for Creators with a field for their Creator channel (YT, Twitch, FB, Tiktok)
 - Username, email, (optional) phone, real name, password fields
4. Send an email with invite links to our “exclusive” communities (Discord, forum)
5. Accounts need to track rewards

Additional Creator features

- Need to differentiate between Creator accounts and regular user accounts
- Creator accounts can generate “codes”
 - A limited amount of codes per day per creator
 - Creator logs in
 - Creator gets access to simple UI with a button to generate 1 code, and a button to generate 10 codes at a time
 - Creators can only generate so many codes per day (let’s say 10 initially)
 - Once they have reached their max, we provide a message that says, “You’ve reached your max today. Please check back tomorrow!”
 - Codes expire after 48 hours
- User accounts created through Creator codes will be linked to the Creators

Phase II

External integration

Integrate with Discord and forums
